

Resolved. That the Episcopal Diocese of Colorado call upon its parishes and members to encourage constructive dialogue and otherwise support the establishment of accessible, affordable, appropriate, and sustainable health care for all the people of our country.

This resolution is intended to affirm the values of the Episcopal Diocese of Colorado as they apply to health care. Our understanding of the value of all human life derives from both the example and teachings of our Lord, and that principle commends to us just and equitable access to all the essentials of life, including health care. We believe we have an obligation to contribute that understanding to the national dialogue in the name of the Church and for the encouragement of the common good.

Adoption of this resolution has no direct fiscal impact on the Diocese of Colorado.
